25 YEAR RE-REVIEW

SECRET,

_ 2 _

25X1

construction work in the woods between Koenigin-Elisabeth hospital and Karlshorster Landstrasse and Hegemeister Weg had stopped because of heavy frost. An excavation about 50 x 20 neters and 2 or 3 meters deep had been made so far.

25X1

- 6. On 13 and 19 January, a double field cable line was laid from the Karlshorst restricted area to the building of the Soviet embassy located Unter den Lindea.
- 7. Between 21 January and 1 February, no loadings and unloadings were noticed at the railroad stations of Kaulsdorf and Lichtenber.

On 25 January, Wuhlheide cantonment south of the Karlshorst race course was occupied by about 1,000 troops. Sentries observed at the estern gate wore red-ordered black epaulets. on 23 and 25 January, about 10 canvas-covered tanks were parked in the billeting area. A T-34/35 tank and a six-whool armored personnel carrier were seen in the billeting area. On 25 January.

25X1

25X1

9. On 19 January, Wuhlheide contonment south of the Karlshorst race course quartered about 1,000 troops. On 13 January, 30 tanks covered with tarpaulins and soldiers engaged in the construction of vehicle sheds were seen in the southwestern corner of the installation. On 19 January, the 30 tanks were still there. They included 10 T-34/85 tanks. About 100 to 150 soldiers engaged in technical work. No other training activity was noticed. About 20 soldiers excavate a trench for the foundation, about 10 x 20 meters. Deventy officers wearing red-bordered black equilets with ank insignia, most of them lieutements, left the billeting area and took the transay toward north.

Comment. Compared with previous information, the present report tends to indicate that, up to late January, Wuhlheide canton ent south of the Karlshorst race course was still occupied by a mechanized regiment of the 7th Cds Hecz Div and the restricted western section of Wuhlgarten insone asylum by the 93d Tank Rept of the 6th Cds Necz Div. or Cds Tank Rept.
